

# 2009 Annual Index of *Young Children* Articles

## Keyed to the 10 NAEYC Early Childhood Program Standards

Following is the Volume 64 Annual Index to *Young Children* articles, columns, and features. An occasional article is expanded online and archived at [www.naeyc.org/yc/pastissues](http://www.naeyc.org/yc/pastissues).

The Annual Index begins with a listing of regularly appearing columns and occasional features. Next come articles indexed by subject matter as they support and relate to the topic areas within the 10 NAEYC Early Childhood Program Standards. Finally, other important early childhood education focus areas not directly related to the program standards are grouped by topic. An author listing concludes the Annual Index.

For an online search of authors and a broader subject search of abstracts of *Young Children* articles since 1985, volume 40, and of other articles published online since September 2002, visit [www.naeyc.org/yc/search](http://www.naeyc.org/yc/search).

## By Column or Feature

Regularly appearing columns and features in *Young Children* are listed below by name, issue date, and page numbers. Those in **red** are also available as downloadable PDFs online at [www.naeyc.org/yc/columns](http://www.naeyc.org/yc/columns).

**Advocates in Action** (JAN) 58–59; (MAR) 72–73; (MAY) 62–63; (JULY) 75; (NOV) 80–83

**Family Ties:** (NOV) 97–99

**From Our President**, English and Spanish: (JAN) 6, 9; (MAR), (MAY), (JULY) 6–7; (SEPT) 6, 9; (NOV) 6–7

**In Memoriam:** Winona Elliott Sample (JAN) 78; Jim Greenman (JULY) 73–74; Jane Knitzer Ginsburg (JULY) 73, 85; Hanne Sonquist (SEPT) 76–77; Camille B. Schiffman (NOV) 96

**Learning by Leaps and Bounds:** (MAR) 66–67; (JULY) 60–61; (NOV) 74–75

**NAEYC Accreditation:** (MAY) 68–70; (JULY) 78–79; (SEPT) 72–73; (NOV) 84–86

**NAEYC Annual Report:** (NOV) 101–12

**New Books:** (JAN) 96; (MAR) 96; (MAY) 96; (SEPT) 96; (NOV) 100

**Observations and Reflections**, English and Spanish: (JAN) 74–75; (MAR) 76–77; (MAY) 66–67; (JULY) 76–77; (SEPT) 78, 79; (NOV) 90–91

**Of Primary Interest:** (MAR) 63–65; (JULY) 62–64; (NOV) 76–78

**On Our Minds:** (JAN) 54–57; (MAY) 50–53; (SEPT) 66–69

**Professional Development:** (NOV) 88–89

**The Reading Chair:** (JAN) 50–51; (MAR) 68–69; (MAY) 46–47; (JULY) 58–59; (SEPT) 62–63; (NOV) 72–73

**Research in Review:** television and literacy (MAR) 80–89

**Resources for:** literacy (JAN) 11, 48–49; supporting all learners (MAR) 11, 60–62; mathematics/early years (MAY) 42–44; real stories/real classrooms (JULY) 56; essential partnerships: families & teachers (SEPT) 60–61; science in the early years (NOV) 68–69

**Rocking and Rolling—Supporting Infants, Toddlers, and Their Families:** (JAN) 52–53; (MAY) 48–49; (SEPT) 64–65

**Teachers on Teaching:** separation (JAN) 92–93; relationships (JAN) 94–95; clay play (MAY) 78–81; democratic classrooms (JULY) 100–01

**Voices of Practitioners:** teacher research articles—“If I Were President”; “Zooms”

## By NAEYC Early Childhood Program Standard

This section of the Index is formatted to help readers identify articles in *Young Children* as resources related to the 10 NAEYC Early Childhood Program Standards, which define quality for child care, preschool, and kindergarten programs. (Articles focusing on **primary classrooms** or other topics, such as **professional development** or **research**, appear at the end of this section.) To learn more about the standards, visit [www.naeyc.org/academy/primary/standardsintro](http://www.naeyc.org/academy/primary/standardsintro).

There are several ways to locate copies of *Young Children* articles you are interested in.

**NAEYC members** can choose to receive print copies of *Young Children* (YC) issues 6 times a year. All members have access online to the interactive digital version of *Young Children* (available since March 2008), and may download articles from the digital issues for educational purposes. To access the digital YC:

[www.naeyc.org/memberlogin](http://www.naeyc.org/memberlogin)

**Everyone** can

- use the NAEYC search tool to locate abstracts of *Young Children* articles at

[www.naeyc.org/yc/search](http://www.naeyc.org/yc/search)

- download articles that are identified in the **Annual Index** as available online by clicking on the live links provided. For example,

**dual language learners (MAR) 27–34**  
[www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march)

- view a list of online accessible articles in each issue of YC Volume 64 at

[www.naeyc.org/yc/pastissues](http://www.naeyc.org/yc/pastissues)

- purchase a photocopy of any article by mailing a check for \$5.00 with the article title/date to NAEYC, Attention: YC Reprints, or by providing title/date and credit card information in an e-mail request (use **YC Reprints** in the subject line) to [ccauman@naeyc.org](mailto:ccauman@naeyc.org) or [mriley@naeyc.org](mailto:mriley@naeyc.org)

- order a 2009 past issue of *Young Children* (Jan/#040, Mar/#041, May/#042, July/#043, Sept/#044, or Nov/#045) at the NAEYC Online Store

[www.naeyc.org/store](http://www.naeyc.org/store)  
(click on “Journals”)

## 1. Relationships

### *Addressing challenging behaviors*

celebrating fathers as a resource in infant/toddler settings (SEPT) 64–65 [www.naeyc.org/yc/columns/rocking](http://www.naeyc.org/yc/columns/rocking)

communication with and supportiveness of families serving children's best interests (SEPT) 34–38

games building cooperation (MAR) 66–67 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

Internet-based communication, tips on involving families (SEPT) 46–49 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Mitchell>

peer-mediated intervention as an inclusive strategy for all young children (MAR) 43–49

successful inclusion of children with autism spectrum disorder (JAN) 81–82, 84–89 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Willis>

to create programs that are supportive of and create community among parents (SEPT) 50–55

### *Among teachers and families*

helping immigrant families understand and participate in their children's American education (NOV) 97–99

### *Between teachers and children*

infant/toddlers met by joyful, trustworthy caregivers (JAN) 92–93

lap reading as a nurturing environment with kindergartners (SEPT) 80–87

by listening to and talking with children; strategies for (MAR) 90–95

sharing stories with infants and toddlers throughout the day to foster close relationships (JAN) 42–25

teacher responses to infants/toddlers shapes what they learn

and how they see themselves (MAR) 58–59

watching babies play as cues to their development and meeting their needs (MAY) 48–49 [www.naeyc.org/yc/columns/rocking](http://www.naeyc.org/yc/columns/rocking)

### *Creating harmonious classrooms*

by addressing and including culturally responsive practices (SEPT) 34–38

encouraging toddlers' engagement in developing a cooperative relay race (JAN) 94–95

learning about economic class and fairness (MAY) 50–53 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

lets babies develop understanding of self and negotiate group living/learning (JULY) 20–28 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see McMullen>

setting an example in the classroom to teach positive interactions and social negotiation (SEPT) 88–91

### *Helping children make friends*

through guided participation that supports children in entering play and engaging in positive social interactions (JULY) 80–85

social interaction and children with autism spectrum disorder (JAN) 81–82, 84–89 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Willis>

### *Promoting self-regulation*

peer-mediated intervention integrated in classroom routines develops child leadership and supports peers with disabilities (MAR) 43–49

recess—for developing leadership and social skills and resolving conflicts (SEPT) 66–69 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

using Japanese *Hansei* model for teaching/letting children self-regulate through introspection (JULY) 86–90

## 2. Curriculum (content or focus areas in blue)

### *Cognitive*

[arts/creative expression and appreciation](#)

challenging movement activities foster creativity and stimulate imagination (JULY) 60–61 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

clay play for 3-, 4-, and 5-year-olds is a journey in meaning making, socializing, and creativity (MAY) 78–81

dramatic play in The General Store sparks creativity, taking turns, and joy (JULY) 36–41

kindergartners sing, dance, draw, paint, and design in an inquiry-based investigation of rocks and sand (MAY) 12–18 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Ogu>

music—matters in the development of language and listening skills (NOV) 74–75 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

the power of African American female characters to inspire and inform curriculum (JAN) 26–31

teaching *with* art encourages children's storytelling, imaginative critical thinking, and appreciation of diversity (JULY) 107–12

### [early literacy](#)

through dictation children learn the purpose of writing and speech-to-text connection (JAN) 22–25

importance of language sound structure in reading development (JAN) 12–18, 21 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Yopp>

infants and toddlers learning to use books (JAN) 42–25

lap reading with kindergartners (SEPT) 80–87

a literature-based exploration leads to unique learning in creating a play General Store in preschool (JULY) 36–41

science inquiry and literacy activities work together in kindergarten (NOV) 32–38

supporting home language, key to literacy skill in English (MAR) 36–39, 41–42

teaching inquiry skills by using children's books (NOV) 24–26

using children's books, reviews of [www.naeyc.org/yc/columns/readingchair](http://www.naeyc.org/yc/columns/readingchair)

what television can and can't do: research in review (MAR) 80–89

writing as young children's early exploration and testing of how language works (MAR) 52–57

#### early mathematics

games, familiar toys, and open-ended materials connect kindergartners to math concepts through play (MAY) 18–24

infants and toddlers exploring mathematics (MAY) 39–41

math learning trajectories for all ages, birth and on (MAR) 63–65 [www.naeyc.org/yc/columns/primary](http://www.naeyc.org/yc/columns/primary)

preschoolers play like *consumers*, using mathematics to shop (MAY) 34–38

#### health and safety

creating a truly inclusive early childhood program and setting to welcome children with special needs (MAR) 20–26 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Watson>

Early Sprouts healthy food choice program involves children in school gardening and cooking/eating activities (JULY) 49–55 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Kalich>

#### science

children design and build a bridge to further explore wetlands nature at their lab school (JULY) 42–48

children's books help introduce science concepts and promote inquiry skill (NOV) 24–26

in children's everyday lives via hands-on inquiry; standards outline the concepts (NOV) 10–15 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Bosse>

curriculum that leads children to be engaged, to investigate, and to report (NOV) 49–53

gardening in the classroom and nature-based play as meaningful science education for preschoolers (NOV) 42–48 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Hachey>

kindergartners investigate rocks and sand through an inquiry-based approach (MAY) 12–18 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Ogu>

learning key concepts at home by involving families (NOV) 39–41

learning through reading, writing, and inquiry in kindergarten (NOV) 32–38

scientific investigation approach supporting children's language, math, and science reasoning skills (NOV) 54–60

toddlers' child- and adult-guided science explorations at Boulder Journey school (NOV) 18–23

#### social studies

exploring beliefs and attitudes about socioeconomic class and fairness (MAY) 50–53 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

a kindergarten class study on cultural heritage builds respect, enhances literacy learning (MAY) 50–53 [www.naeyc.org/yc/pastissues/2009/may](http://www.naeyc.org/yc/pastissues/2009/may) <see cohen>

learning self-awareness/community membership using the project approach in a multilingual setting (JULY) 12–19

#### technology

children design and build a bridge to further explore wetlands nature at their lab school (JULY) 42–48

digital tools (whiteboards and Web sites) as vital ways to learn in early childhood (NOV) 92–95

science content standards emphasize understanding distinctions between natural and man-made, along with earth, space, and life (NOV) 10–15 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Bosse>

#### Developmental

##### language

challenges in working with dual language learners and the value of varied and repetitious word use (MAR) 27–34

development through block play and dinosaurs in a multilingual classroom (JULY) 12–19

a Head Start program changes to a dual language curriculum and benefits children and families (JULY) 92–99 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Youngquist>

importance of music experience to language development (NOV) 74–75 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

intentional bilingual learning within the capability of infants and toddlers (JAN) 52–53 [www.naeyc.org/yc/columns/2009/january](http://www.naeyc.org/yc/columns/2009/january)

learning in a culturally diverse play curriculum based on heritage (MAY) 72–77 [www.naeyc.org/yc/pastissues/2009/may](http://www.naeyc.org/yc/pastissues/2009/may) <see Cohen>

playing with language, children's sensitivity to sound structure (JAN) 12–18, 21 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Yopp>

the power of a good story to create a unique play environment (JULY) 36–41

support of home language usage in learning builds English skills (MAR) 36–39, 41–42

using home languages and establishing a sense of place (SEPT) 40–44

### physical

challenging movement activities can foster creativity and stimulate imagination (JULY) 60–61 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

creating an inclusive environment that allows all children to be as involved and independent as possible (MAR) 20–26 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Watson>

the relationship of recess to children's health and nutrition (SEPT) 66–69 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

resources for babies' exploration, cued to development stages (MAY) 48–49 [www.naeyc.org/yc/columns/rocking](http://www.naeyc.org/yc/columns/rocking)

science learning at home, including health and nutrition (NOV) 39–41

turning a relay race into a cooperative activity and transitions into a songfest (JAN) 94–95

### social-emotional

babies' prosocial development encouraged in group settings (JULY) 20–28 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see McMullen>

development of 3- to 5-year-olds using a project approach in a multicultural classroom (JULY) 12–19

games to build trust, problem solving, and cooperation (MAR) 66–67 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

gardening in the classroom and nature-based play connect children of all cultures and create social bonds (NOV) 42–48 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Hachey>

through guided participation in learning skills for engaging in positive social interactions during play and other experiences (JULY) 80–85

the importance of recess in developing children's leadership and social skills and resolving conflicts (SEPT) 66–69 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

infant/toddlers making education journeys guided by joyful, trustworthy caregivers (JAN) 92–93

lap reading creates a safe and nurturing climate shared with kindergartners (SEPT) 80–87

nurturing children's introspection for thoughtful behaviors and actions (JULY) 86–90

peer-mediated intervention integrated in classroom routines develops child leadership and supports peers with disabilities (MAR) 43–49

preschoolers learn as consumers and develop social skills in hands-on shopping (MAY) 34–38

support of families of children with special needs (SEPT) 16–22 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Ray>

### *Essential characteristics*

clay play, every day, supports curiosity, experimentation, conversation, and thinking (MAY) 78–81

creating a learning environment that includes natural resources and cultural objects (SEPT) 40–44

critical thinking and reading readiness: lap reading benefits (SEPT) 80–87

of hands-on science inquiry; science standards outline the concepts (NOV) 10–15 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Bosse>

a Head Start program changes its approach to teaching/learning in both Spanish and English (JULY) 92–99 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Youngquist>

of IFSPs and IEPs and collaborating with families to meet the needs of children with disabilities (SEPT) 16–22 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Ray>

as means of a more democratic classroom, ten ways to create (JULY) 100–01

learning what children learn from each other: research on talking with children (MAR) 90–95

playful activity . . . and children's mathematical understandings emerge (MAY) 18–24

of the relationship of recess and cognitive growth (SEPT) 66–69 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

of the scientific method through inquiry (NOV) 49–53

## 3. Teaching

### *Creating caring communities*

by creating programs that value and support families and create community among parents (SEPT) 50–55

through family engagement and cultural integration (SEPT) 56–58

family involvement for at-home science learning (NOV) 39–41

infant experiences of loving trust create a foundation for later mastery of emotional regulation and self-control (MAR) 58–59

through intentional, thoughtful family engagement in the early education program (SEPT) 10–14

by introducing literature with powerful African American female characters for inspiration/information (JAN) 26–31

by partnering with families of children with special needs (SEPT) 16–22 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Ray>

peer-mediated intervention to support peers with disabilities (MAR) 43–49

by reinforcing group values and modeling nurturing of introspection for thoughtful behaviors and actions (JULY) 86–90

self-awareness/community membership using the project approach in a multilingual setting (JULY) 12–19

that reflect, support, and value varieties of cultural backgrounds, religions, and classes (MAY) 72–77 [www.naeyc.org/yc/pastissues/2009/may](http://www.naeyc.org/yc/pastissues/2009/may) <see cohen>

to teach positive interactions and social negotiation—skills for learning and life (SEPT) 88–91

#### *In enriched learning environments*

with children's books, reviews of (see The Reading Chair in "By Column or Feature")

clay play, a staple in a multiage group and a journey in meaning making (MAY) 78–81

following infants and toddlers' cues for stories and books to share (JAN) 42–25

inclusion of children with autism spectrum disorder, strategies (JAN) 81–82, 84–89 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Willis>

intentional bilingual learning is within the capability of infants and toddlers (JAN) 52–53 [www.naeyc.org/yc/columns/2009/rocking](http://www.naeyc.org/yc/columns/2009/rocking)

lap reading as an intimate, dialogic environment for engaging kindergartners (SEPT) 80–87

that encourage babies' development of prosocial skills and behaviors and sense of belonging (JULY) 20–28 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see McMullen>

to spark children's natural curiosity to explore, question, and investigate like "scientists" (NOV) 10–14 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Bosse>

science education through gardening in the classroom incorporates math, reading, social studies, the arts *with science* (NOV) 42–48 [www.naeyc.org/yc/pastissues/2009/november](http://www.naeyc.org/yc/pastissues/2009/november) <see Hachey>

#### *Making learning meaningful*

with digital tools (whiteboards and Web sites) as vital, new ways for children to connect to their world (NOV) 92–95

in a Head Start program by shifting to dual language learning in both Spanish and English (JULY) 92–99 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Youngquist>

involving teacher, mentor, and supervisor in working with dual language learners (MAR) 27–34

"messaging about" to make science stimulating at Boulder Journey School (NOV) 18–23

partnering with high schoolers, preschoolers learn math and social skills in project Consumer Town (MAY) 34–38

through playful activity, children's mathematical understandings emerge (MAY) 18–24

through the power of a good story to create a unique play environment (JULY) 36–41

through program support of dual language learners, simple con-

versation exchange, labels in home languages, and culturally authentic pictures and home items (MAR) 36–39, 41–42

read-alouds to support children's phonological awareness development 12–18, 21 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Yopp>

teachers and families together in essential partnerships for children's successful learning (SEPT) 10–14

writing/drawing as a conversation starter in multilingual classrooms and genuine communication (MAR) 52–57

#### *Responding to children's interests and needs*

conversations with children to seek their ideas and learn how they understand things; strategies to use (MAR) 90–95

enabling all children, including those with disabilities, impairments, disorders to be involved and independent as possible (MAR) 20–26 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Watson>

learning from parents about disabilities and how best to meet the child's needs (SEPT) 16–22 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Ray>

in a multilingual setting through a dinosaur project enveloped in block play (JULY) 12–19

music and movement in educating the whole child (NOV) 74–75 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

offering, observing, commenting as infants/toddlers explore math (MAY) 39–41

rhyming and alliteration play and repetition promote children's phonological awareness 12–18, 21 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Yopp>

science curriculum that builds on children's natural sense of wonder (NOV) 49–53

selecting television programming to support language/literacy (MAR) 80–89

teachers engage in schoolwide inquiry to understand children's capabilities and concerns and support their collaborations with peers (*Voices of Practitioners* 2009) [www.naeyc.org/publications/vop/articles](http://www.naeyc.org/publications/vop/articles) <see Mardell>

ten ways to create a more democratic classroom, including scaffolding learning and inviting children into the assessment process (JULY) 100–01

in their desire to design and build a bridge to further explore wetlands nature at their lab school (JULY) 42–48

using children's books to teach inquiry skills (NOV) 24–26

watching babies play and what their play tells you about their development (MAY) 48–49 [www.naeyc.org/yc/columns/rocking](http://www.naeyc.org/yc/columns/rocking)

*Supervising children's safety*

preparing self and program to include and welcome children with special needs (MAR) 20–26 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Watson>

supporting children in their design and building a bridge to further explore wetlands nature at their lab school (JULY) 42–48

*Using time, grouping, and routines*

challenging movement activities can foster creativity and stimulate imagination (JULY) 60–61 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

games that foster trust, problem solving, and cooperation (MAR) 66–67 [www.naeyc.org/yc/columns/leapsandbounds](http://www.naeyc.org/yc/columns/leapsandbounds)

and guided participation to support young children's social development (JULY) 80–85

providing variety and encouraging math-related exploration by infants/toddlers (MAY) 39–41

to let preschoolers find out what it's like to be scientific explorers (NOV) 54–60

to support infant/toddlers in education journeys (JAN) 92–93

turning a relay race into a cooperative activity and transitions into a songfest (JAN) 94–95

*To build children's skills and knowledge and deepen their understanding*

cultivating children's thinking through shared ideas/experiences (NOV) 18–23

implementing portfolio assessment to document children's work/learning and reflect on and plan teaching practices (MAY) 82–85

integrated science inquiry and literacy activities appropriate for kindergartners (NOV) 32–38

math as a core component of learning and thinking and children's mathematical development and potential (MAR) 63–65 [www.naeyc.org/yc/columns/primary](http://www.naeyc.org/yc/columns/primary)

promoting inquiry-based learning, with open-ended questions and time for thinking (MAR) 12–18 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Ogu>

teaching with art to encourage children's storytelling, to foster imaginative, critical thinking and to appreciate diversity (JULY) 107–12

writing down children's stories and words supports young authors and dual language learning (JAN) 22–25

#### 4. Assessment of Child Progress

*Adapting curriculum, individualizing teaching, and informing program development*

documenting children's ideas and their thinking together through an inquiry approach (MAR) 12–18 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Ogu>

multilingual preschoolers teach the teacher what is possible in written language development (MAR) 52–57

*Appropriate methods*

implementing portfolio assessment to document children's work/learning (MAY) 82–85

*Communicating with and involving families*

(No articles in Volume 64.)

*Creating a plan for*

teachers create documentation panels as evidence of meeting classroom goals (*Voices of Practitioners* 2009) [www.naeyc.org/publications/vop/articles](http://www.naeyc.org/publications/vop/articles) <see Mardell>

*Identifying children's interests, needs, and progress*

(No articles in Volume 64.)

#### 5. Health

*Ensuring nutritional well-being*

a children's garden provides a setting for nutrition education as children observe and care for plants and prepare and eat new foods (JULY) 49–55 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Kalich>

*Maintaining healthful environments*

(No articles in Volume 64.)

*Promoting/protecting children's health*

(No articles in Volume 64.)

## 6. Teachers

### *Dispositions and professional commitment*

(No articles in Volume 64.)

### *Preparation, knowledge, and skills*

professional reading (see New Books in “By Column or Feature”)

resources for essential partnerships between teachers and families (SEPT) 60–61 [www.naeyc.org/pastissues/2009/september](http://www.naeyc.org/pastissues/2009/september) <see Resources>

teachers evolving from individual, reflective practitioners to collaborative, schoolwide teacher researchers (*Voices of Practitioners* 2009) [www.naeyc.org/publications/vop/articles](http://www.naeyc.org/publications/vop/articles) <see Mardell>

## 7. Families

### *Knowing and understanding*

by creating a sociocultural context emphasizing partnership between teachers/families/community (SEPT) 40–44

family life and challenges in caring for a child with a disability, such as Down syndrome (SEPT) 16–22 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Ray>

home language use in the classroom to make families feel welcome and respected (MAR) 36–39, 41–42

intentional, thoughtful family engagement in early childhood education (SEPT) 10–14

through a philosophy approach of family engagement and cultural integration (SEPT) 56–58

resources for essential partnerships between families and teachers (SEPT) 60–61 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Resources>

school-family partnerships to explore cultural heritage in kindergarten (MAY) 72–77 [www.naeyc.org/yc/pastissues/2009/may](http://www.naeyc.org/yc/pastissues/2009/may) <see Cohen>

setting the stage for bilingual learning encourages families’ active involvement as resources (MAR) 27–34

support for families of children with autism spectrum disorder (JAN) 81–82, 84–89 [www.naeyc.org/yc/pastissues/2009/january](http://www.naeyc.org/yc/pastissues/2009/january) <see Willis>

the value, resilience, and contributions of all families in inviting their visits and stories of their lives and work (MAY) 50–53 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

### *Nurturing as advocates for their children*

celebrating fathers as resources in infant/toddler settings (SEPT) 64–65 [www.naeyc.org/yc/columns/rocking](http://www.naeyc.org/yc/columns/rocking)

Early Sprouts healthy food choice program supports families in extending children’s school gardening and cooking/eating activities at home (JULY) 49–55 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Kalich>

by focusing on affirming children’s strengths and building classroom-home communication (SEPT) 34–38

importance of recess and children’s right to play (SEPT) 66–69 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds)

resources for families and teachers in essential partnerships (SEPT) 60–61 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Resources>

tips on involving families through Internet-based communication (SEPT) 46–49 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Mitchell>

### *Sharing information with*

and being available to families supports productive relationships and children’s best interests (SEPT) 34–38

of difficult separations and teacher’s support in understanding the normal developmental phase of babies (MAR) 58–59

immigrant families to help them understand and participate in their children’s American education (NOV) 97–99

involving families through Internet-based communication (SEPT) 46–49 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Mitchell>

and learning from parents about disabilities and how best to meet their child’s needs (SEPT) 16–22 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september) <see Ray>

resources for families (SEPT) 14 [www.naeyc.org/yc/pastissues/2009/september](http://www.naeyc.org/yc/pastissues/2009/september)

science at home, involving families (NOV) 39–41

to create supporting relationships and community among parents (SEPT) 50–55

to engage children, their immigrant families, and families of low socioeconomic status in writing activities using photography (SEPT) 28–33

## 8. Community relationships

### *Accessing its resources*

(No articles in Volume 64.)

### *Citizenship and involvement*

childhood in a garden develops community (AN) 32–38

of immigrant families to enable their understanding of American school practices and their roles as parents in the education of their children (NOV) 97–99

### *Linking with*

children and families capture their neighborhood via photography, which becomes an impetus for writing (SEPT) 28–33

## **9. Physical Environments**

### *Building design and maintenance*

(No articles in Volume 64.)

### *Environmental health*

(No articles in Volume 64.)

### *Equipment, materials, and furnishings*

convert a preschool classroom space into The General Store for creative play, turn-taking learning, and real joy (JULY) 36–41

readying your program for including children with special

needs (MAR) 20–26 [www.naeyc.org/yc/pastissues/2009/march](http://www.naeyc.org/yc/pastissues/2009/march) <see Watson>

### *Outdoor environment design*

children design and build a bridge to further explore wetlands nature at their lab school (JULY) 42–48

## **10. Leadership and Management**

### *Fiscal accountability*

(No articles in Volume 64.)

### *Health, nutrition, and safety*

(No articles in Volume 64.)

### *Leadership*

facilitating involvement of dual language learners in the class-

room through vision, advocacy, research, and organization (MAR) 27–34

New Zealand curriculum policy based on honoring family and culture and emphasizing learning partnership (SEPT) 40–44

### *Management policies and procedures*

advocating for policies to improve practice (JULY) 70–77

### *Personnel policies*

(No articles in Volume 64.)

### *Program evaluation/accountability/improvement*

a Head Start program refines its vision and defines a paradigm shift for learning in more than one language (JULY) 92–99 [www.naeyc.org/yc/pastissues/2009/july](http://www.naeyc.org/yc/pastissues/2009/july) <see Youngquist>

---

## **By Other Topics**

### **Accreditation**

criteria review process launched for NAEYC Accreditation of programs (NOV) 84–86

program administrators' reflections on the accreditation process (JULY) 78–79

self-study process: getting started in the quest for program quality (MAY) 68–70

### **Advocacy**

early childhood education helping the U.S. prosper (JULY) 75

of the early childhood workforce systems initiative (MAY) 62–63

getting to know new federal, state, and local public officials (JAN) 58–59

for helping families in challenging times (MAY) 6–7

quality care and education for babies: how can we afford less? (MAR) 6–7

strategies for (JAN) 6–7

for united support of continued funding for all child care programs (SEPT) 6, 9

Week of the Young Child as advocacy (MAR) 72–73

### **Children's literature and writing**

American picture books and Ukrainian teachers, learning from others and reflecting on American values (JULY) 102–04, 106

a perspective on creating an environment for young “authors” with writing workshops (JULY) 30–35

responsive reading with first-graders to explore seeing and feelings about the world (MAY) 86–89

using read-alouds with critical literacy literature for social and

academic development (NOV) 76–78 [www.naeyc.org/yc/columns/primary](http://www.naeyc.org/yc/columns/primary) <see Meller>

### **Developmentally appropriate practice**

supporting all kinds of learners (MAR) 76

### **Early learning standards**

preschoolers and high schoolers meeting math standards in project Consumer Town (MAY) 34–38

### **Primary classrooms**

(see also **Of Primary Interest** in “By Column or Feature”)

collaborative work by third-graders: benefits of cooperative learning and engaging families in understanding (MAY) 91–95,

first-graders develop inquiry through observation and analogy (NOV) 62–67

first-graders use mathematics to understand and represent inequality (MAY) 12–17 [www.naeyc.org/yc/pastissues/2009/may](http://www.naeyc.org/yc/pastissues/2009/may) <see Murphy>

teaching social justice to 6- and 7-year-olds (*Voices of Practitioners/2009*) [www.naeyc.org/publications/vop/articles](http://www.naeyc.org/publications/vop/articles) <see Goss>

teaching the writing process to nurture first-grade authors' skills in developing topics/plans and self-editing (JULY) 30–35

using read-alouds with critical literacy literature for social and academic development (NOV) 76–78 [www.naeyc.org/yc/columns/primary](http://www.naeyc.org/yc/columns/primary) <see Meller>

ways to support writing in primary grades: pen pals and play scripts (JAN) 32–36

writers' lunch club in first grade (JAN) 37–41

virtual and concrete manipulatives support learning key math skills and conceptual understanding (MAY) 26–29, 31–33

### **Professional development, responsibility, career/ growth, and leadership**

creating an integrated, comprehensive state early childhood professional development system (MAY) 62–63

early childhood educators support hurricane recovery efforts (JULY) 76–77

mentoring early childhood education students for rewarding conference experiences (MAY) 58–61

new books, reviews of (JAN) 96; (MAR) 96; (MAY) 96; (SEPT) 96; (NOV) 100 [www.naeyc.org/yc/columns/newbooks](http://www.naeyc.org/yc/columns/newbooks)

standards for early childhood professionals' preparation programs, revised (NOV) 88–89

teacher education mentor-student relationship (JAN) 54–57 [www.naeyc.org/yc/columns/minds](http://www.naeyc.org/yc/columns/minds) <see Strader>

### **Research**

how to co-construct with 6- and 7-year-olds a curriculum promoting social justice (*Voices of*

*Practitioners/2009*) [www.naeyc.org/publications/vop/articles](http://www.naeyc.org/publications/vop/articles) <see Goss>

studies and task force reports support advocacy efforts for high-quality early childhood education (NOV) 80–83

support for educators from NAEYC's Office of Applied Research (JAN) 90–91

### **Science, Math, and Technology**

examining science through poetry and tools such as the microscope or jeweler's loupe (NOV) 62–67

mathematics and social justice in grade 1 (MAY) 12–17 [www.naeyc.org/yc/pastissues/2009/may](http://www.naeyc.org/yc/pastissues/2009/may) <see Murphy>

second-graders use the scientific method and get excited about making a soda geyser in class (JULY) 62–64 [www.naeyc.org/yc/columns/primary](http://www.naeyc.org/yc/columns/primary)

virtual manipulatives encourage children to talk and write about math relationships in a technology-rich world (MAY) 26–29, 31–33
