

2022 Site Visit Assessment Item Changes by Source of Evidence

The changes below take effect for programs whose 6-month site visit window opens January 1, 2022, or later.

If your 6-month site visit window opens before January 1, 2022, do **NOT** engage with these revisions.

Sources of Evidence are Program Portfolio, Class Portfolio, Program Observation, and Class Observation. Four items in Standard 6 related to staff's formal educational qualifications are assessed prior to the visit by NAEYC staff. The source of evidence is shown here as "Pre-visit".

Types of Item Changes:

- ADDED - Item added to the source of evidence
- REMOVED - Item removed from the source of evidence
- ITEM LANGUAGE - The language of the item has changed. There may also be changes to the guidance accompanying the item.
- GUIDANCE ONLY - There are one or more changes to the guidance accompanying the item. The language of the item has *not* changed.

NOTE: Most of the changes incorporated into the 2022 Version are minor language changes to align with the revised edition of NAEYC's *Developmentally Appropriate Practice*. They do not fundamentally alter any of the assessment items or impact the documentary or observable evidence needed to address the items.

Programs are encouraged to review all changes, but revisions most likely to affect prepared evidence or observed classroom or program-wide practices have been highlighted in green in the tables below.

Number of 2022 Assessment Item Changes by Source of Evidence						
Type of Change	#	Program Portfolio	Class Portfolio	Class Observation	Program Observation	Pre-Visit
Total Items Changed	139	48	5	79	7	0
Item added	6	0	1	5	0	0
Item removed	6	0	2	4	0	0
Revised item language	111	38	2	66	5	0
Guidance changes only	16	10	0	4	2	0
