Class Observation Tool: All Ages

Program ID#: ___________ Visit Date: ___________

Assessor ID#: ___________ Assessor Last Name: ____________________________________

Class Name: ______________________________________ Class Number: ___________

Class Observation

Start Time: ___________ End Time: ___________

Environmental Time Exception

☐ Indoors  ☐ N/A

Start Time: ___________ End Time: ___________

Infant Sleep Time Exception

☐ N/A

Start Time: ___________ End Time: ___________

Max # of Children: ______  Age category(ies) of children in this group:

☐ Infant  ☐ Toddler/Two

☐ Preschool  ☐ Kindergarten

☐ School-Age

The answers to the following two questions must be provided by the Teaching Staff or Program Administrator.

Are there children with identified special needs in the group today?

Yes ☐  No ☐

☐ Speech & language  ☐ Orthopedic handicaps

☐ Neurological disorders  ☐ ADHD

☐ Down Syndrome  ☐ Hearing impairment

☐ Learning disabilities  ☐ Visual Impairment

☐ Autism, spectrum disorders  ☐ Behavioral

☐ Mentally disabled
/Developmentally delayed  ☐ Maintenance care diseases
(diabetes, HIV)

☐ Other, specify
☐ Other, specify

Are there children with special needs enrolled in the group, although not here today?

Yes ☐  No ☐

☐ Autism, spectrum disorders

☐ Mentally disabled
/Developmentally delayed

☐ Other, specify

Teaching Staff during Observation: Write one name on each line below. If staff entered or left (more than 5 min.) during the observation, note time in or out.

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

Other staff present during Observation:
__________________________________________________________________________

Reliability Check?

Yes ☐  No ☐
General Rating Guidelines:

“Have Chances” - Conversations, materials, equipment, or activities that allow for children to engage in a particular concept or area of development. At least 2 examples, in some combination must be observed.

“Play” - Children’s active engagement and enjoyment of an activity and their ability to determine how the activity is carried out.

Standard 1 – Relationships

1B: Building Positive Relationships between Teachers and Children.

1B.1 I, T, P, K, S

Teachers respond to children’s negative emotions (hurt, fear, anger) by offering developmentally appropriate comfort, support, and assistance.

☐ Yes  ☐ No  ☐ No Opp

Rate No Opp if no negative emotions are observed.
Developmentally appropriate: based on what we know about the development and learning of children within a given age range, while also considering each child’s individual abilities and needs, and his or her cultural background.

1B.2 I, T, P, K, S

Teachers take into account children’s differing temperaments when relating to each child.

☐ Yes  ☐ No

Watch for teaching staff’s sensitivity to individual children (versus treating all children basically the same way).

1B.3 P, K, S

Teachers take into account children’s differing activity levels when relating to each child.

☐ Yes  ☐ Not Age  ☐ No

Watch for teaching staff’s sensitivity to individual children (versus treating all children basically the same way).

1B.4 I, T, P, K, S

Staff never use physical punishment and do not engage in psychological abuse or coercion.

☐ Yes  ☐ No

Rate No if any person employed by or volunteering for the program physically punishes, psychologically abuses, or coerces a child. This is a required assessment item. If a child is in immediate danger, assessors must immediately notify the program administrator and contact the NAEYC Accreditation of Early Learning Programs.

Examples of physical punishment: Shaking, hitting, spanking, slapping, jerking, squeezing, kicking, biting, pinching, excessive tickling, and pulling of arms, hair, or ears; requiring a child to remain inactive for a long period of time.

Examples of psychological abuse: shaming, name calling, ridiculing, humiliation, sarcasm, cursing at, making threats, or frightening a child; ostracism, withholding affection.

Examples of coercion: rough handling (shoving, pulling, pushing, grasping any body part); forcing a child to sit down, lie down, or stay down, except when restraint is necessary to protect the child or others from harm; physically forcing a child to perform an action (such as eating or cleaning up).

1B.5 I

Infant teachers talk, coo, and sing to infants and repeat infants’ sounds.

☐ Yes  ☐ Not Age  ☐ No

1B.6 I, T

Teachers are aware of infants’, toddlers’, and twos’ individual levels of arousal and moderate their own voice level and physical interaction accordingly.

☐ Yes  ☐ Not Age  ☐ No
1B.7 I, T
Teachers can distinguish the meaning of infant's, toddlers', and two's various cries and other signs of distress.

Rate No Opp if no cries or other signs of distress are observed.

1C: Helping Children Make Friends

1C.1 I
Teachers facilitate infants’ interest in looking at, touching, or vocalizing to other people.

1C.2 P, K, S
Teachers give children a chance to resolve their own conflicts without immediate teacher intervention.

Rate No Opp if no evidence of conflicts is observed.

Conflict: A disagreement or argument of ideas or about material objects between two or more children.

1C.3 T, P, K, S
When children are in conflict, teachers help them identify their feelings.

Rate No Opp if no evidence of conflicts is observed.

Conflict: A disagreement or argument of ideas or about material objects between two or more children.

1C.4 T, P, K, S
When children are in conflict, teachers help them identify and describe the problem.

Rate No Opp if no evidence of conflicts is observed.

Conflict: A disagreement or argument of ideas or about material objects between two or more children.

1C.5 T, P, K, S
When children are in conflict, teachers help them think of alternative solutions.

Rate No Opp if no evidence of conflicts is observed.

Conflict: A disagreement or argument of ideas or about material objects between two or more children.

1D: Creating a Predictable, Consistent, and Harmonious Classroom

1D.1 I, T, P, K, S
Classroom materials show persons with differing abilities engaged in activities that counteract stereotypical limitations.

Counteracting stereotypical limitations: the selection and use of materials that represent people in ways that depict a diversity of experiences, values, abilities, dress, and customs rather than singular representations of an entire group or selection of people.
1D.2  I, T, P, K, S
Classroom materials show persons of different ethnic or cultural backgrounds engaged in activities that counteract stereotypical limitations.

Counteracting stereotypical limitations: The selection and use of materials that represent people in ways that depict a diversity of experiences, values, abilities, dress, and customs rather than singular representations of an entire group or selection of people.

☐ Yes  ☐ No

1D.3  T, P, K, S
Teachers offer children the chance to choose activities, materials, and areas in which to play.

Play: Children's active engagement and enjoyment of an activity and their ability to determine how the activity is carried out.

☐ Yes  ☐ Not Age  ☐ No

1D.4  T, P, K, S
Teachers anticipate problematic behavior and take steps to prevent it.

Rate Yes if no problematic behavior is observed.

Examples of problematic behavior: Temper tantrums, not following directions, persistent whining, conflicts with other children and adults.

☐ Yes  ☐ Not Age  ☐ No

1D.5  T, P, K, S
Teachers use narration and description of ongoing interactions to identify prosocial behaviors.

1F: Promoting Self-Regulation

1F.1  T, P, K, S
Teachers help children learn emotional regulation skills.

Examples of emotional regulation skills: Persisting when frustrated, gaining control of physical impulses, expressing emotions in non-harmful ways, learning about self and others.

☐ Yes  ☐ Not Age  ☐ No

1F.2  T, P, K, S
Teachers guide and support children to use language to communicate needs.

☐ Yes  ☐ Not Age  ☐ No

1F.3  T, P, K, S
Teachers guide and support children to gain control of physical impulses.

☐ Yes  ☐ Not Age  ☐ No
Standard 2 – Curriculum

2A: Curriculum: Essential Characteristics

2A.1 T, P, K, S

The class’s learning spaces offer learning experiences related to all these cognitive content areas: literacy; mathematics; science; technology; creative expression and the arts; health and safety; social studies.

Examples of learning experiences: experiments, performing arts, conversations, field trips.

Technology: Equipment and machinery developed from scientific knowledge.

Examples of technology: Hand tools, microscopes, computers, clocks, keys, plumbing, wagons.

Examples of social studies: Family, friends, community, social roles, social rules, geography, money, businesses, governments.

2B: Areas of Development: Social-Emotional Development

2B.1 T, P, K, S

Children have chances to recognize and name other people’s feelings.

☐ Yes ☐ No ☐ Not Age

2B.2 I

For infants, teachers show and name their own feelings and the feelings of other children.

☐ Yes ☐ No ☐ Not Age

2B.3 T, P, K, S

Children have chances to learn how to resolve conflicts in constructive ways.

Conflict: A disagreement or argument of ideas or about material objects between two or more children.

☐ Yes ☐ No ☐ Not Age

2B.4 T, P, K, S

Children have chances to understand that other people may have different thoughts and opinions than theirs.

Rate No Opp if there are no opportunities for such chances to take place during the observation. Rate No if there are missed opportunities for such chances to take place.

☐ Yes ☐ No ☐ Not Age

2B.5 T, P, K, S

Children have chances to learn that other people may have different feelings than they do.

Rate No Opp if there are no opportunities for such chances to take place during the observation. Rate No if there are missed opportunities for such chances to take place.

☐ Yes ☐ No ☐ Not Age

2D: Areas of Development: Language Development

2D.1 P, K, S

Children have discussions with each other or with staff to solve problems related to the physical world.

Rate No Opp if no such problems are observed. Rate No if there are missed opportunities to discuss problems related to the physical world.

Examples of problems related to the physical world: How to retrieve a ball that has gone over a fence, using ramps to make cars go faster or further, putting puzzle pieces together.

☐ Yes ☐ No ☐ Not Age
### 2D.2 T, P, K, S

Teachers use words that children may not understand and provide explanations or examples of these words.

- ☐ Yes
- ☐ No
- ☐ Not Age

### 2E: Curriculum Content Area for Cognitive Development: Early Literacy

#### 2E.1 I, T

Teachers play individually with infants, toddlers, and twos by singing songs.

- ☐ Yes
- ☐ No
- ☐ Not Age

#### 2E.2 T, P, K, S

Teachers help children connect print to spoken word.

*Examples of print: Labels, classroom rules/routines, signs, posted letters, words, or sentences.*

- ☐ Yes
- ☐ No
- ☐ Not Age

#### 2E.3 P, K, S

Some of the books available to children relate to current learning topics, themes, or activities.

- ☐ Yes
- ☐ No
- ☐ Not Age

#### 2E.4 P, K, S

Writing materials and activities are readily available in art, dramatic play, and one or more other learning centers.

*Learning centers: Defined areas within a classroom prepared with a selection of materials that promote learning in a specific content area, such as art or science.*

*Examples of learning centers: Blocks/construction, writing table, woodworking, library, creative arts, manipulatives, science and collections.*

- ☐ Yes
- ☐ No
- ☐ Not Age

#### 2E.5 P, K, S

Teachers help children write the words and messages they are trying to communicate.

*Rate No Opp if children are not observed to need help writing words and messages during the observation. Rate No if children are observed needing help writing words and messages and staff do not offer to help.*

- ☐ Yes
- ☐ No
- ☐ No Opp

#### 2E.6 P, K, S

Printed words about topics of current interest are posted in the classroom at eye level or made available on laminated cards.

- ☐ Yes
- ☐ No
- ☐ Not Age

#### 2E.7 P, K, S

Teachers model the process of print writing.

*Rate No Opp if there are no opportunities for teachers to model the functional use of writing during the observation. Rate No if there are missed opportunities for teachers to model the functional use of writing during the observation.*

*Examples of writing: Lists, charts and graphs, letters, reflections on and responses to experiences, notes, instructions, signs, rules, procedures.*

- ☐ Yes
- ☐ No
- ☐ No Opp
2E.8  P, K, S

Teachers talk about the many ways writing is used in daily life.

☐ Yes  ☐ Not Age
☐ No  ☐ No Opp

Rate No Opp if there are no opportunities for teachers to talk about the ways writing is used in daily life during the observation. Rate No if there are missed opportunities for teachers to talk about the ways writing is used in daily life during the observation.

Examples of ways writing is used in daily life: Shopping lists, letters, cards, journals/diaries, notes, e-mail, online-posts.

2F: Curriculum Content Area for Cognitive Development: Early Mathematics

2F.1  I, T

Infants, toddlers, and twos have chances to play with toys in a variety of shapes.

☐ Yes  ☐ Not Age
☐ No

2F.2  I, T

Infants, toddlers, and twos have chances to play with toys in graduated sizes.

☐ Yes  ☐ Not Age
☐ No

2F.3  I, T

Infants, toddlers, and twos have chances to play with toys and objects in a variety of colors.

☐ Yes  ☐ Not Age
☐ No

2F.4  I, T

Infants, toddlers, and twos have chances to play with a variety of visually patterned toys and other objects.

Examples of visual patterns: Polka dots, stripes, zigzags, checkerboard, hounds tooth, paisley, animal print.

2F.5  T, P, K, S

Children have chances to see and learn about number concepts.

☐ Yes  ☐ Not Age
☐ No

Number concepts: The understanding of cardinal and ordinal number systems as related to objects and quantities and the static and dynamic nature of these relationships.

Examples of number concepts: Teachers counting out-loud for toddlers and twos, children counting, books, games, use of manipulatives, sequencing.

2F.6  T, P, K, S

There are toys and other objects in the learning environment that children can categorize by shape, size, and color.

☐ Yes  ☐ Not Age
☐ No

2F.7  P, K, S

There are toys and other objects in the learning environment that allow children to name and recognize two- and three-dimensional shapes.

☐ Yes  ☐ Not Age
☐ No

2F.8  P

Children have chances to recognize and name repeating patterns.

☐ Yes  ☐ Not Age
☐ No

Repeating patterns: Sequences of colors, shapes, sounds, or other attributes that occur again and again.

Examples of repeating patterns: Circle, circle, square, circle, circle, square...; yellow, blue, red, yellow, blue, red...

<tr>
<th>2G.3</th>
<th>P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are at least two representations of data collection (e.g., through drawing or graphing) included in classroom displays.</td>
<td>☐ Yes ☐ No</td>
</tr>
</tbody>
</table>

- **Data:** Broadly defined as factual information and may relate to any of the curriculum content areas (not just science).

<table>
<thead>
<tr>
<th>2G.4</th>
<th>P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>Children have chances to do activities that encourage them to think, ask questions, and make predictions about natural and physical phenomena.</td>
<td>☐ Yes ☐ No</td>
</tr>
</tbody>
</table>

- **Phenomena:** Facts or occurrences directly observable by the senses.

---

### 2J: Curriculum Content Area for Cognitive Development: Creative Expression and Appreciation for the Arts

<table>
<thead>
<tr>
<th>2J.1</th>
<th>I, T, P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>Children have chances to appreciate culturally diverse visual arts in their learning environment.</td>
<td>☐ Yes ☐ No</td>
</tr>
</tbody>
</table>

- **Visual arts:** creations that can be observed and appreciated.
- **Examples of visual arts:** Painting, drawing, sculpture, photos, mask-making, batik, quilts, basketry, architecture.
**2J.2**  
I, T, P, K, S  
Children have chances to appreciate culturally diverse dramatic arts in their learning environment.  
☐ Yes  ☐ No  
If children witness dramatic performances or interact with materials related to dramatic arts, these are chances to gain appreciation of dramatic arts.  
**Dramatic arts:** Arts created for the purpose of public performance. Examples of dramatic arts: Acting, (including dress-up), puppetry, musical recital, mime.

**2J.3**  
I, T  
Infants, toddlers, and twos have chances to explore and manipulate age-appropriate art materials.  
☐ Yes  ☐ No  ☐ Not Age

**2J.4**  
T, P, K, S  
Children have chances to develop and practice art skills.  
☐ Yes  ☐ No  ☐ Not Age

*Examples of art skills:* Cutting, gluing, painting, sculpting, drawing, caring for tools and supplies.

**2J.5**  
P, K, S  
Children have chances to create both two- and three-dimensional art.  
☐ Yes  ☐ No  ☐ Not Age  
Rate Yes if at least one opportunity of both types of art (two-dimensional AND three-dimensional) are observed.  
**Art (or “the arts”):** The expression or application of human creative skill and imagination, producing works to be appreciated primarily for their beauty or emotional power.  
*[https://en.oxforddictionaries.com/definition/art](https://en.oxforddictionaries.com/definition/art)*  
**Examples of creative arts curriculum topics:** Painting, drawing, sculpting, and use of other visual media; participating in music, movement, dramatic play, and puppetry; appreciation of art created by others; learning vocabulary related to the arts.

**2L: Curriculum Content Area for Cognitive Development: Social Studies**

**2L.1**  
T, P, K, S  
Children have chances to learn that families have a variety of family structures.  
☐ Yes  ☐ Not Age  ☐ No  
**Examples of family structures:** Nuclear family, single-parent family, extended family, childless family, step-family, grandparent family, and families including adopted members, same-sex spouses, unwed partners, teen-aged parents.

**2L.2**  
T, P, K, S  
Children have chances to learn specific details about the actual community in which they live.  
☐ Yes  ☐ Not Age  ☐ No  
**Generic books and posters about community resources or community helpers are insufficient to meet this item.**  
**Community:** The specific locality of a group of people with shared governmental, cultural, historical, social, religious, or occupational heritage.  
**Examples of community:** Military bases; workplaces; academic campuses; local business, towns; neighborhoods; residential, and recreational areas or landmarks.

**2L.3**  
P, K, S  
Children have chances to learn about the physical and geographic characteristics of their local environment.  
☐ Yes  ☐ Not Age  ☐ No  
**Examples of geographic characteristics:** Rivers, gardens, mountains, parks, buildings, community businesses, and neighborhood layout.
### 2L.4 P, K, S

**Children have chances to build a basic understanding of economic concepts.**

*Examples of economic concepts:* Money, buying and selling, wants and needs, the value of things.

- Yes
- No
- Not Age

### Standard 3 – Teaching

#### 3A: Designing Enriched Learning Environments

#### 3A.1 I, T, P, K, S

**Teachers have arranged their classrooms in a way that protects children’s health and safety.**

- Yes
- No

#### 3A.2 T, P, K, S

**At least half of the classroom displays show children’s works of writing, art, graphs, or other creations.**

- Yes
- No
- Not Age
# 3C: Supervising Children

## Infant and Toddler Supervision

### 3C.1 I, T

<table>
<thead>
<tr>
<th>☐ Yes</th>
<th>☐ Not Age</th>
<th>☐ No</th>
</tr>
</thead>
</table>

All infants, toddlers, and young twos can be easily heard and seen (if not in the direct line of sight, then by looking up or turning in place) at all times—including when children are sleeping—by at least one member of the teaching staff. Staff does not need to be directly looking at each child at all times to meet the requirement for sight supervision.

**Rate the next two items NO OPP if Required Item 3C.1 is rated YES**

### 3C.2 I, T

**REQUIRED**

<table>
<thead>
<tr>
<th>☐ Yes</th>
<th>☐ Not Age</th>
<th>☐ No</th>
<th>☐ No Opp</th>
</tr>
</thead>
</table>

If one or more infant, toddler, or young two year old cannot be easily heard and seen at all times by at least one member of the teaching staff, the child(ren) is/are in a safe environment.

*Rating Note: If item 3C.1 [above] has been rated “Yes”, then you must rate this item “No Opp”.*

If item 3C.1 has been rated “No”, then you must rate this item “Yes” or “No”.

*Rate “No” if one or more infants, toddlers, or young twos are out of direct sight or sound supervision for any length of time, AND this is taking place in an unsafe environment.*

*Examples of situations leading to “Yes” ratings:* (1) child is behind a structure in an adult-occupied, enclosed classroom; (2) child is not visible behind a utility shed on a securely enclosed playground at the program facility when staff are present.

### 3C.3 I, T

**REQUIRED**

<table>
<thead>
<tr>
<th>☐ Yes</th>
<th>☐ Not Age</th>
<th>☐ No</th>
<th>☐ No Opp</th>
</tr>
</thead>
</table>

If one or more infant, toddler, or young two year old is out of the direct sight or sound supervision of all teaching staff while in a safe environment, it is for no more than five minutes.

*Rating Note: If item 3C.1 [above] has been rated “Yes”, then you must rate this item “No Opp”.*

If item 3C.1 has been rated “No”, then you must rate this item “Yes” or “No”.

*Rate “No” if one or more infants, toddlers, or young twos are out of direct sight or sound supervision for more than 5 minutes, even in a safe environment.*

**Safe environment:** A fully enclosed area, free of safety and environmental hazards, occupied by at least one supervising adult.

**Unsafe environment:** Areas without a supervising adult; unenclosed areas allowing access to exterior of facility; any area with safety or environmental hazards that pose imminent or immediate risk to children.

*Examples of unsafe environments:* Facility parking lot, unoccupied bathroom, corridor, kitchen, storage room.

### 3C.4 I, T

<table>
<thead>
<tr>
<th>☐ Yes</th>
<th>☐ Not Age</th>
<th>☐ No</th>
<th>☐ No Opp</th>
</tr>
</thead>
</table>

If any infant, toddler, or young two year old is sleeping, staff position themselves so someone can always hear and see them.

*Rate No Opp if no infants, toddlers, or young twos are sleeping during the observation.*
Preschool Supervision

3C.5  P
Teachers of preschoolers keep these children in sight most of the time, with the exception of brief periods (up to five minutes, in a safe environment -- such as child’s use of the toilet) when a child cannot be seen but can still be heard.

☐ Yes  ☐ No  ☐ Not Age

Rate the next two items NO OPP if Required Item 3C.5 is rated YES

3C.6  P  REQUIRED
If a preschooler is out of the direct sight AND sound supervision of all teaching staff, it is for no more than 1 minute, and the child is in a safe environment.

Rating Note: If item 3C.5 (above) has been rated “Yes”, then you must rate this item “No Opp”.
If item 3C.5 has been rated “No”, then you must rate this item “Yes” or “No”.
Rate NO if one or more preschoolers are out of direct sight AND sound supervision for more than one minute.

☐ Yes  ☐ No  ☐ Not Age  ☐ No Opp

3C.7  P  REQUIRED
If a preschooler is out of direct sight OR sound supervision of all teaching staff, it is for no more than ten minutes and the child is in a safe environment.

Rating Note: If item 3C.5 (above) has been rated “Yes”, then you must rate this item “No Opp”.
If item 3C.5 has been rated “No”, then you must rate this item “Yes” or “No”.
Rate No if one or more preschoolers are out of direct sight OR sound supervision for more than 10 minutes.
Safe environment: A fully enclosed area, free of safety and environmental hazards, occupied by at least one supervising adult.
Unsafe environment: Areas without a supervising adult; unenclosed areas allowing access to exterior of facility; any area with safety or environmental hazards that pose imminent or immediate risk to children.
Examples of unsafe environments: Facility parking lot, unoccupied bathroom, corridor, kitchen, storage room.

Kindergarten and School-Age Supervision

3C.8  K, S  REQUIRED
Teachers of kindergartners and school-age children keep these children within sight and/or hearing most of the time. A teacher may allow kindergarteners and school-agers to leave their supervision (out of sight and sound) for up to 10 minutes so long as they are in a safe environment (e.g., go to hall bathroom; report to school nurse office).
Safe environment: A fully enclosed area, free of safety and environmental hazards, occupied by at least one supervising adult.
Unsafe environment: Areas without a supervising adult; unenclosed areas allowing access to exterior of facility; any area with safety or environmental hazards that pose imminent or immediate risk to children.
Examples of unsafe environments: Facility parking lot, unoccupied bathroom, corridor, kitchen, storage room.
3D: Using Time, Grouping, and Routine to Achieve Learning Goals

3D.1  T, P, K, S

When needed, teachers support children in performing daily cleanup and maintenance jobs in the classroom.

Rate No Opp if daily cleanup and maintenance jobs do not take place during the observation. Rate No if there are missed opportunities for children to be engaged in these tasks or if daily cleanup and maintenance jobs are observed and staff do not support children in these tasks, when needed.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

3D.2  T, P, K, S

Teachers allow the right amount of time for children to smoothly transition from one activity to the next.

Rate No Opp if no opportunity for transitions is present during the observation.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

3E: Responding To Children’s Interests and Needs

3E.1  I, T, P, K, S

Teachers rearrange the classroom, when necessary, to help children explore new concepts or topics.

Rate No Opp if it is not necessary for teachers to rearrange the classroom to help children explore new concepts or topics during the observation. Rate No if it becomes necessary for teachers to rearrange the classroom to help children explore new concepts or topics during the observation and teachers do not do so.

Examples of rearranging the classroom: Staff expand learning centers or move furniture.

Learning centers: Areas within a classroom prepared with a selection of materials that promote learning in a specific content area, such as art or science.

Examples of learning centers: Blocks/construction, writing table, woodworking, library, creative arts, manipulatives, science and collections.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

3E.2  I, T, P, K, S

Teachers rearrange the classroom, when necessary, so children can continue doing an activity.

Rate No Opp if it is not necessary for teachers to rearrange the classroom so children can continue doing an activity during the observation. Rate No if it becomes necessary for teachers to rearrange the classroom so children can continue doing an activity and teachers do not do so.

Examples of rearranging the classroom: Staff expand learning centers or move furniture.

Learning centers: Areas within a classroom prepared with a selection of materials that promote learning in a specific content area, such as art or science.

Examples of learning centers: Blocks/construction, writing table, woodworking, library, creative arts, manipulatives, science and collections.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

3E.3  I, T, P, K, S

Teachers depart from planned activities if children show interest in a different topic or activity.

Rate No Opp if children do not show interest in a different topic or activity than is planned for the day during the observation. Rate No if children do show interest in a different topic or activity and teachers do not depart from the planned activities for the day during the observation.

☐ Yes ☐ No ☐ Not Age ☐ No Opp
3E.4 I, T, P, K, S

Teachers adapt their teaching strategies to best fit each child’s learning style.

☐ Yes
☐ No

Rate Yes if you see that children are engaged in activities and are not frustrated by the activities.

Examples of teaching strategies: Small and large group activities, teacher- or child-directed activities, “expanding upon” activities, modeling behavior, asking children open-ended questions, and encouraging children to maintain being engaged in activities.

Learning style: Each person’s preferred way of taking in and remembering new information. Examples of learning styles: visual, auditory, kinesthetic, sequential, reflective.

3E.5 I, T, P, K, S

Teachers modify classroom materials, when necessary, to fit each child’s learning style.

☐ Yes ☐ No ☐ No Opp

Rate No Opp if it is not necessary for teachers to modify classroom materials to fit each child’s learning style during the observation. Rate No if it becomes necessary for teachers to modify classroom materials to fit each child’s learning style and the teachers do not do so.

Learning style: Each person’s preferred way of taking in and remembering new information. Examples of learning styles: visual, auditory, kinesthetic, sequential, reflective.

3E.6 I

When an infant shows interest or pleasure in an activity, teachers help prolong the activity through encouragement or active involvement.

☐ Yes ☐ No ☐ Not Age

3E.7 T, P, K, S

Teachers sometimes customize learning experiences, based on their knowledge of the children’s social relationships.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

Rate No Opp unless there is clear evidence of an opportunity for teacher to do this. Look for evidence that teaching staff have knowledge of the children and adapt teaching to meet the specific needs of each child and the group.

Examples of learning experiences: Experiments, performing arts, conversations, field trips.

3F: Making Learning Meaningful for All Children

3F.1 P, K, S

Teachers have conversations with the children about their experiences.

☐ Yes ☐ No ☐ Not Age

3G: Using Instruction to Deepen Children’s Understanding and Build Their Skills and Knowledge

3G.1 I, T, P, K, S

As a child refines skills or gains a new skill, teachers fine-tune their teaching support to advance that child’s further learning (scaffolding).

☐ Yes ☐ No ☐ No Opp

Rate No Opp if there are no opportunities for children to refine or learn new skills.

Rate No if there are missed opportunities for teachers to fine-tune their teaching support as children refine or learn new skills.

Examples of teaching supports related to scaffolding: Teaching staff assist in making a plan to attempt new tasks, divide tasks into simpler tasks, or ask prompting questions to promote thinking about the task and problem solving.

Scaffolding: Teachers “provide assistance and/or add support to enable each child to master a challenge just beyond his current level. The teacher gradually reduces the support as the child is able to proceed independently.” Developmentally appropriate Practice, 3rd Edition Page 154.
### 3G.2 I, T, P, K, S

As a child refines skills or gains a new skill, teachers advance that child’s further learning by making the activity a little more difficult (scaffolding).

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>No Opp</th>
</tr>
</thead>
</table>

Rate No Opp if there are no opportunities for children to refine or learn new skills.

Rate No if there are missed opportunities for teachers to advance a child’s learning by making the activity a little more difficult as children refine or learn new skills.

*Scaffolding:* Teachers “provide assistance and/or add support to enable each child to master a challenge just beyond his current level. The teacher gradually reduces the support as the child is able to proceed independently.” Developmentally appropriate Practice, 3rd Edition Page 154.

### 3G.3 T, P, K, S

Teachers use their knowledge of curriculum content to pose problems and ask questions that stimulate the children to think.

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>Not Age</th>
</tr>
</thead>
</table>

### 3G.4 T, P, K, S

Teachers help children express their ideas about curriculum content and build on the meaning of their experiences.

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>Not Age</th>
</tr>
</thead>
</table>

### 3G.5 T, P, K, S

Teachers help children identify and use what they already know (prior knowledge).

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>Not Age</th>
</tr>
</thead>
</table>

### 3G.6 T, P, K, S

Teachers provide learning experiences that extend and challenge children’s current understanding of the world.

*Examples of learning experiences:* Experiments, performing arts, conversations, field trips.

---

### Standard 5 – Health

#### 5A: Promoting and Protecting Children’s Health and Controlling Infectious Disease

### 5A.1 I, T, P, K, S

Program staff change diapers or training pants when wet or soiled.

<table>
<thead>
<tr>
<th></th>
<th>N/A</th>
<th>Yes</th>
<th>No</th>
<th>No Opp</th>
</tr>
</thead>
</table>

Do not rate how family members change diapers, if observed. Rate N/A if the group does not include children in diapers or training pants. Rate No if wet or soiled diapers were not changed during the observation. Rate No Opp if there are no obvious signs of wet or soiled diapers or training pants during the observation.

### 5A.2 I, T, P, K, S

Each designated changing area is separated by a partial wall OR is located at least three feet from other areas that children use.

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
</table>

*Designated changing area:* An area or space prepared for the purpose of changing soiled diapers, training pants, or underwear and in which all changing related materials are readily available.

*Examples of designated changing areas:* Changing tables, bathrooms, curtained/semi-private nooks or corners.

### 5A.3 I, T, P, K, S

All diaper bins have a lid that opens and closes tightly using a hands-free device (e.g., step can).

<table>
<thead>
<tr>
<th></th>
<th>N/A</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
</table>

Rate N/A if the group does not include children in diapers or disposable training pants.

*Diaper bins:* Receptacles designed and/or used for the purpose of containing soiled diapers.
5A.4  I, T, P, K, S
☐ N/A

Children cannot access diaper bins.
Rate N/A if the group does not dispose of diapers in their room. Rate as No if diapers are disposed in an accessible trash can used for multiple purposes.

Diaper bins: Receptacles designed and/or used for the purpose of containing soiled diapers.

5A.5  I, T, P, K, S
☐ Yes
☐ No  ☐ No Opp

Both children and adults wash or sanitize their hands before meals and snacks.
For children 24 months and under, soap and water should be used and alcohol-based hand sanitizers should not be used.
Rate No Opp if no meals or snacks are consumed during the observation.

5A.6  I, T, P, K, S
☐ Yes
☐ No  ☐ No Opp

Both children and adults wash or sanitize their hands after playing in water that is shared by two or more people.
For children 24 months and under, soap and water should be used and alcohol-based hand sanitizers should not be used.
Rate No Opp if water play does not take place during the observation.

5A.7  I, T, P, K, S
☐ Yes
☐ No  ☐ No Opp

Both children and adults wash their hands after touching sand or dirt.
Rate as No Opp if neither children nor adults touch sand or dirt during the observation.

5A.8  I, T, P, K, S
☐ N/A

Adults wash or sanitize their hands before and after feeding a child.
Rate N/A when observing meal or snack time in classes where all children are capable of independently feeding themselves. Rate No Opp if no meals or snacks are served during the observation.

5A.9  I, T, P, K, S
☐ Yes
☐ No  ☐ No Opp

When washing their hands, adults and children rub their hands vigorously for at least 20 seconds, including back of hands, wrists, between fingers, under and around any jewelry, and under fingernails.
ALL elements must be observed in MOST of the adults and children MOST of the time to rate Yes for this indicator. Rate No Opp if no handwashing takes place during the observation.

5A.10  I  REQUIRED
☐ Yes  ☐ Not Age
☐ No  ☐ No Opp

Teaching staff place infants on their backs to sleep, without the use of infant sleep positioners, unless ordered by a physician.
Rate No Opp if no infants are observed being placed to sleep. Documentation of a physician’s authorization will be requested if infants younger than 12 months are observed being placed to sleep in positions other than on their back, are observed being placed to sleep with an infant sleep positioner, or are observed to be sleeping with an infant sleep positioner.

Infant sleep positioners: Devices intended to keep an infant in a desired position while sleeping.
Examples of infant sleep positioners: Sleeping bolsters, wedge-style positioners, rolled up blankets placed under the infant, elevated crib mattresses.
5A.11
Teachers only place infants to sleep in equipment that is specifically designed for infant sleep.

Rate No Opp if no infants are observed being placed to sleep.

Examples of equipment not specifically designed for infant sleep: Car safety seat, swing, bouncer, stroller, infant seat, highchair.

Examples of infant sleeping equipment: Cribs, play yards, cots, mats, sleeping bags or pads, Montessori floor beds.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

5A.12
When infants arrive to the program asleep, or fall asleep, in equipment not specifically designed for infant sleep, the infant is removed and placed in appropriate infant sleep equipment.

Rate No Opp if no infants arrive to the program asleep, or fall asleep during the observation, in equipment not specifically designed for infant sleep.

Examples of equipment not specifically designed for infant sleep: Car safety seat, swing, bouncer, stroller, infant seat, highchair.

Examples of infant sleeping equipment: Cribs, play yards, cots, mats, sleeping bags or pads, Montessori floor beds.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

5B: Ensuring Children’s Nutritional Well-being

5B.1
Staff discard any formula or breast milk that has been unrefrigerated for one hour or more.

Rate No Opp if no unrefrigerated formula or breast milk is seen during the observation.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

5B.2
Staff do not feed infants in place of other forms of comfort.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

5C: Promoting and Protecting Children’s Health and Controlling Infectious Disease

5C.1
Food-serving tables and high chairs are cleaned and sanitized after each use.

Rate No Opp if no food is served during the observation.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

5C.2
When strong odors occur in the air, they are controlled using ventilation (not air-freshening sprays).

Rate No Opp if no strong airborne odors occur during the observation. Rate No if odors persist and staff have not attempted to control them.

☐ Yes ☐ No ☐ Not Age ☐ No Opp

5C.3
If a child has contaminated a toy with saliva or other body secretion or excretion, staff set the toy aside for washing in a bin or in another location created for that purpose.

Rate No Opp if no toy becomes contaminated during the observation period.

Examples of body secretions or excretions: Blood, saliva, urine, feces, vomit, or mucous.

☐ Yes ☐ No ☐ Not Age ☐ No Opp
### Standard 6 – Professional Competencies and Supports
#### 6A: Supportive Work Environment

<table>
<thead>
<tr>
<th>6A.1</th>
<th>I, T, P, K, S</th>
<th>NEW 2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>There is suitably sized seating available to adults in the classroom.</td>
<td>☐ Yes</td>
<td>☐ No</td>
</tr>
</tbody>
</table>

_Suitable seating: A stool, chair, bench, or other seat that is capable of supporting an adult person._

### 6B: Professional Identity and Recognition

<table>
<thead>
<tr>
<th>6B.1</th>
<th>I, T, P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>Teachers’ communication with families is culturally sensitive and professional.</td>
<td>☐ Yes</td>
</tr>
</tbody>
</table>

_Rate No Opp if no communication between teachers and family members is observed._

### Standard 7 – Families
#### 7A: Knowing and Understanding the Program’s Families

<table>
<thead>
<tr>
<th>7A.1</th>
<th>I, T, P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>If needed, teachers assist families in handling difficult separations during drop-off and pickup times.</td>
<td>☐ Yes</td>
</tr>
</tbody>
</table>

_Rate No Opp if no difficult separations are observed._

### Standard 9 – Physical Environment
#### 9A: Indoor and Outdoor Equipment, Materials, and Furnishings

<table>
<thead>
<tr>
<th>9A.1</th>
<th>I, T, P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classrooms are designed so staff can supervise children by sight and sound at all times, without relying on mirrors, cameras, or sound monitors.</td>
<td>☐ Yes</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>9A.2</th>
<th>I, T, P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classrooms are arranged to provide children with semiprivate areas.</td>
<td>☐ Yes</td>
</tr>
</tbody>
</table>

_Semiprivate: A place designed to invite children to play or work alone or with a friend. Examples of semiprivate areas: easel, loft, playhouse, book nook, cozy corner, tent._

<table>
<thead>
<tr>
<th>9A.3</th>
<th>I, T, P, K, S</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classrooms are arranged to provide full access (as needed) to children with physical special needs.</td>
<td>☐ N/A</td>
</tr>
</tbody>
</table>

_Rate N/A if there are no children with physical special needs enrolled in the class._

_Special needs: Physical or mental health conditions that require special education services such as early intervention or individualized supports._
9C: Building and Physical Design

9C.1  I, T, P, K, S

The classroom is free of hazards that could lead to electrical shock, burns or scalding, slipping, tripping, or falling. ☐ Yes ☐ No

Tamper resistant outlets may be difficult to see. Assessors ask about use of tamper resistant outlets during the Orientation Meeting.

9C.2  I, T, P, K, S

There is a well-marked, readily accessible, fully equipped first aid kit outside during outdoor play. ☐ Yes ☐ No ☐ No Opp

Rate No Opp if the class does not go outside during observation. Rate No if location of first aid kit is not apparent, or it cannot be readily accessed.

9C.3  I, T

There are no choking hazards within the reach of infants, toddlers, or young two year olds. ☐ Yes ☐ No ☐ Not Age

Use a choke tube to measure any item that might be too small when observing in infant, toddler, and young two year old rooms.

9D: Environment Health

9D.1  I, T, P, K, S

Toxic substances are inaccessible to children. ☐ Yes ☐ No

Toxic substances: Any substance that is potentially harmful if ingested, inhaled, or absorbed through the skin.

Examples of toxic substances: Cleaners, detergents, bleach, hand sanitizer, paint, pesticides, herbicides, floor and furniture polish.

Standard 10 – Leadership and Management

<table>

</tr>
</tbody>
</table>

Program staff maintain Developmentally appropriate staff-to-child ratios in classrooms and other indoor settings.

Rate No Opp if no indoor time is observed with the class. For mixed aged classes, rate each of the applicable items for the age categories present.

Developmentally appropriate: Based on what we know about the development and learning of children within a given age range, while also considering each child’s individual abilities and needs, and his or her cultural background.

Staff-to-child ratio: The number of children compared to the number of staff.
### Indoor Class Size

<table>
<thead>
<tr>
<th>ItemID</th>

<tr>
<td>Furnishings &amp; materials in the room</td>
<td>4 ☐</td>
<td>5 ☐</td>
<td></td>
</tr>
<tr>
<td>Room layout for this age group</td>
<td>1 ☐</td>
<td>2 ☐</td>
<td>3 ☐</td>
</tr>
<tr>
<td></td>
<td>4 ☐</td>
<td>5 ☐</td>
<td></td>
</tr>
</tbody>
</table>

### Notes

Notes are NOT optional for this tool. In one or two sentences, describe what was happening with the class during the observation period: indoor vs. outdoor play, free play, routines, transitions, snacks or meals, arrival times, etc. Note anything unusual or challenging. You may also use this page optionally to record comments about particular ratings, questions, issues, procedural irregularities, or anything else you think NAEYC should know about this class assessment or this tool. Write item numbers if applicable.
